This one-day seminar showcased innovations and trends in teaching and learning for its academic denizens. It was officiated by Professor Tan Sri Dato' Dzulkifli Abdul Razak, the Vice-Chancellor of USM, who delivered the keynote address.

Besides invited international guest speaker Mr Lucifer Chu from Taiwan, the event was also graced by local guest speakers from various local universities. Among the topics presented and shared include transformation of education, e-collaborative learning, content development, blended learning.

Visitors to the eLearningMinds exhibition booth were given live demos on the very affordable, portable and versatile UI-SmartBOARD which can transform the use of ICT in the classroom.

There were also demos on the capabilities of RAPTIVITY, an exciting development software tool that enables lecturers to develop interactivities without any programming required.
